

Welcome to the web-site of the showroom shop „Hansa lina“!

Our showroom shop has been operating on the market of textile products since the year of 2003. Over the last years the customer's demand was carefully investigated, and as the result a wide range of goods is provided and is constantly complemented with new models of textiles.

Since the very beginning, „Hansa lina“ has been only operating with natural fabrics. And the word „LINEN“ in the name of the shop is not occasional. Nowadays Linen (practical and ecological fabric) is considered to be the example of the luxurious goods.

„Hansa lina“ offers a great variety of beautiful, quality and inexpensive products made from Baltic linen:

- Linen and semi-linen fabrics...
- Tableware cloths and bed linen, laces...
- Kitchen textile (bag, aprons, towels, napkins, potholders and oven mitts...)
- Products for sauna (bathrobes, skirts, hats, sets for sauna and many others...)

Among the main benefits of our products is a low price on fabrics, that is significantly lower than in other retail shops.

You can have a look at our products in the homepage catalogue or in the shop situated in Tallinn, not far from the Viru Gates. For the sake of convenience of foreign customers there is an Internet shop open on our web-site where You can order textiles and products to Your liking.

Whether you have any proposals for cooperation or just any proposal or suggestion, please, do not hesitate to contact us using the special form.
